---

Host Chapter: Honolulu, Hawaii.....	vi
Program Committee and Transactions Staff.....	vi
State of the Society Report by Robert O. McDonald.....	vii
Plenary Address: Architecture as an Interface of Man and Technology by Shoji Hayashi.....	xi
Abstracts.....	xvii

---

## FIRST TECHNICAL SESSION

---

2886	Vapor Resistance of Clothing, Local Skin Wettedness, and Discomfort by L.G. Berglund, T. Oohori, D.J. Cunningham, and A.P. Gagge.....	3
2887	The Effect of Ventilation and Relative Humidity upon Airborne Bacteria in Schools (RP-397) by G.H. Green, K. Sareen, and A.D. Osborne.....	13
2888	A Comprehensive Data Base for Estimating Clothing Insulation (RP-411) by E.A. McCullough, B.W. Jones, and J. Huck.....	29
2889	Acoustic Noise Transmission through Duct Walls (RP-318) by A. Cummings.....	48
2890	Thermal Comfort of Building Occupants: A Preliminary Impact Assessment of Passive Strategies by J.P. Coutier, R.C. Kammerud, and J.W. Place.....	62
2891	The Feasibility of Using a Photoelectric Cigarette Smoke Detector for Energy-Efficient Air Quality Control by R.M. Nelson and L.E. Alevantis.....	75

---

## SECOND TECHNICAL SESSION

---

2892	Finned Tube Contact Conductance: Characterizing the Integrity of the Mechanical Bond (RP-295) by T.L. Ernest, J.W. Sheffield, and H.J. Sauer, Jr.....	85
2893	Finned Tube Contact Conductance: Empirical Correlation of Thermal Conductance (RP-295) by J.W. Sheffield, M. Abu-Ebid, and H.J. Sauer, Jr.....	100
2894	A Theoretical and Experimental Analysis of Double-Spiral, Double-Wall Heat Exchangers by V.C. Mei and J.T. Farmer.....	118
2895	Enhancement of Condensation Heat Transfer of R-11 by Internally Finned Tubes by K.S. Venkatesh and N.Z. Azer.....	128
2896	Paper withdrawn	
2897	Evaluation of Seasonal Performance and Utility Impacts of Water Spray Augmentation of Air-Cooled Condensers by G.R. Guinn, D.B. Wallace, L.L. Hummer, and J.A. Hall.....	145

---

## THIRD TECHNICAL SESSION

---

2898	Characterization of Zone Dynamic Response for CLF/CLTD Tables (RP-359) by E.F. Sowell and D.C. Chiles.....	162
2899	Zone Descriptions and Response Characterization for CLF/CLTD Calculations (RP-359) by E.F. Sowell and D.C. Chiles.....	179
2900	A Counter-Intuitive Effect of Mass on Zone Cooling Load Response (RP-359) by D.C. Chiles and E.F. Sowell.....	201
2901	Performance of a Two-Phase Thermosiphon Air-to-Air Heat Exchanger (RP-188) by T.W. McDonald, M. Kosnik, and G. Bertoni.....	209
2902	Experimental Study on Condensation of Refrigerant-Oil Mixtures: Part I—Design of the Test Apparatus (RP-378) by J.C.Y. Wang, A. Al-Kalamchi, and P. Fazio.....	216
2903	Experimental Study on Condensation of Refrigerant-Oil Mixtures: Part II—Results of R-12 and R-22 on the External Surface of Single and Multiple Horizontal Plain Tubes (RP-378) by J.C.Y. Wang, A. Al-Kalamchi, and P. Fazio.....	229

---

## FOURTH TECHNICAL SESSION

---

2904	The Development, Design, and Performance Testing of a Single-Unit Dual-Source (SUDS) Heat Pump Evaporator by D.L. Ewert.....	238
2905	A Direct-Contact-Charged Direct-Contact-Discharged Cool Storage System Using Gas Hydrate by J.J. Carbajo.....	258
2906	A Review of Frost Formation in Simple Geometries by D.L. O'Neal and D.R. Tree.....	267
2907	A Humidity Detection Method for Use with a Room Air Conditioner by E. Kuwahara.....	282
2908	Development of a Gas-Fired Absorption Heat Pump by Y. Ohuchi.....	292

---

**FIFTH TECHNICAL SESSION**

---

2909	For a Multinational Firm, "Learning Metric Is No Big Deal" by S. Humbla.....	304
2910	Energy Performance Analysis of Fenestration in a Single-Family Residence by R. Sullivan and S. Selkowitz	320
2911	Commercial Building Energy Performance Analysis Using Multiple Regression by R. Sullivan, S. Nozari, R. Johnson, and S. Selkowitz.....	337
2912	Upgraded Documentation of the TC 4.7 Simplified Energy Analysis Procedure (RP-363) by D. Knebel and S. Silver	354
2913	Thermal Properties of Low- and Intermediate-Moisture Food (RP-341) by V.E. Sweat.....	369
2914	Measurement of Water Vapor Migration and Storage in Composite Building Construction (RP-337) by J.D. Verschoor.....	390
2915	Paper withdrawn	

---

**SIXTH TECHNICAL SESSION**

---

2916	An Analysis of Heat Losses through Residential Floor Slabs by E.H. Perry, G.T. Cunningham, and S. Scesa	404
2917	A Simple Distribution Method for Two-Dimensional Temperature/Humidity Bin Data by D.G. Erbs, S.A. Klein, and W.A. Beckman.....	413
2918	Cyclic Characteristics of a Typical Residential Air Conditioner — Modeling of Start-Up Transients by W.E. Murphy and V.W. Goldschmidt.....	427
2919	A Comparative Evaluation of the ASHRAE and Won Solar Radiation Models by R. Chatigny and N.T. Galanis	445
2920	Dynamic Modeling of Combined Thermal and Moisture Transport in Buildings: Effects on Cooling Loads and Space Conditions by P.W. Fairey and A.A. Kerestecioglu.....	461
2921	Analysis of Slab-Heated Buildings by J.H. Van Gerpen and H.N. Shapiro.....	473

---

**SEVENTH TECHNICAL SESSION**

---

2922	Ventilation Measurements in Large Office Buildings by A.K. Persily and R.A. Grot.....	488
2923	Air Exchange Rate Measurements of the National Archives Building by S. Silberstein and R.A. Grot.....	503
2924	A Correlation for Estimating Wind Ventilation by C.K. Krishnakumar, R.H. Henninger, C.K. Schafer, S.F. Fields, and D.A. Bettge.....	511
2925	Interrelations among Different Ventilation Parameters and Indoor Pollutants by E.M. Sterling and T.D. Sterling	520
2926	Thermal Effect on Pressure Distribution in Simulated High-Rise Buildings: Experiment and Analysis by K.H. Lee, Y. Lee, and H. Tanaka.....	530
2927	Effect of an Exterior Air-Infiltration Barrier on Moisture Condensation and Accumulation within Insulated Frame Wall Cavities by H.R. Trechsel, P.R. Achenbach, and J.R. Ebbets.....	545

---

**EIGHTH TECHNICAL SESSION**

---

2928	Air Leakage Flow Correlations for Varying House Construction Types by D.E. Kiel, D.J. Wilson, and M.H. Sherman	560
2929	Residential Energy Use: An Analysis of Factors Affecting Gas and Electricity Use in Single-Family Houses by R.J. Goldstein, M.E. Schneider, and M.I. Clarke.....	576
2930	Test Method for Gaseous Contaminant Removal Devices (RP-268) by N. Ostojic.....	594
2931	Methods for Testing Hydronic Floor-Heating Systems by F.J. Grammling.....	615
2932	Control of Supply Water Temperature from Boilers and Steam-to-Hot-Water Converters by D.C. Hittle and A.B. Birtles.....	630
2933	Simplified Method for Designing a Mechanical Smoke Exhaust System for High-Rise Buildings by G.T. Tamura and K. Tsuji.....	642
RP-430	Development of Residential Hot Water Use Patterns by M. Perlman and B.E. Mills.....	657

---

**SOCIETY BUSINESS**

---

ASHRAE Officers, Directors, Committeemen, Staff.....	683
ASHRAE Technical Committees and Task Groups.....	687
ASHRAE Standards Project Committees.....	695
ASHRAE Past Meetings.....	699
Society Presidents.....	700
ASHRAE Honors and Awards.....	701
ASHRAE Intersociety Representatives, 1984-85 Appointments.....	707
ASHRAE International Associates.....	708
In Memoriam.....	709
Index of Technical and Symposium Papers, Volume 91, Part 2.....	713

# CONTENTS

---

Host Chapter: Honolulu, Hawaii .....		x
Program Committee and Transactions Staff .....		x
Abstracts .....		xi
HI-85-1	STUDIES OF DESIGN HEAT LOSS PREDICTIONS COMPARED TO ACTUAL FIELD PERFORMANCE FOR INSULATED SYSTEMS—PART I	
	Computer Modeling of the Thermal Performance of Roof Deck Systems by H.P. Misuriello, J.H. Cable, and R.D. Orlandi .....	5
	Thermal Transmittance of Concrete Block Walls with Core Insulation by M.G. Van Geem .....	17
	R-Values That Are Made-to-Measure by H.A. Trethewen .....	36
	Measured and Expected R-Values of 19 Building Envelopes by S.N. Flanders .....	49
HI-85-2	GEOTHERMAL ENERGY UTILIZATION	
	Sizing the Closed-Loop Earth-Coupling for Heat Pumps by J.R. Partin .....	61
	Heat Transfer from Earth-Coupled Heat Exchangers—Experimental and Analytical Results by J.A. Edwards and P.K. Vitta .....	70
	Corrosion in Low-Temperature Geothermal Applications by E.C. Knipe and K.D. Rafferty .....	81
HI-85-3	AIR LEAKAGE ANALYSIS TECHNIQUES	
	Fan Pressurization of Buildings: Standards, Calibration, and Field Experience by K.J. Gadsby and D.T. Harje .....	95
	Accuracy in Pressurization Data Analysis by A.K. Persily and R.A. Grot .....	105
	AC Pressurization: A Technique for Measuring Leakage Area in Residential Buildings by M.P. Modera and M.H. Sherman .....	120
	Determination of the Effective Leakage Areas of Houses by Multilinear Regression Analysis of the Energy Consumption Data by G. Yuill .....	133
HI-85-4	SOLAR SYSTEM CONTROLS	
	Control Design Deficiencies in HUD Solar Demonstration Projects by W.E. Freeborne .....	147
	Results of Active Solar Control System Testing and the Performance Effects of Sensor Degradation by R.B. Farrington .....	157
	Field Testing of Systems Using Controls to Enhance Thermal Stratification during Soilar Collection by S.A. Mumma .....	170
HI-85-5	WEATHER DATA FOR ENERGY APPLICATIONS OF DESIGNS—PART I	
	Aggregation of U.S. Population Centers Using Selected Climate Parameters Related to Building Energy Use by B. Andersson, W.L. Carroll, and M.R. Martin .....	183
	Design Weather Data for the Irregular Terrain in New Mexico by L.W. Crow .....	206
	Synthetic Solar Radiation Statistics on Cloudy and Sunny Days by O.M. Essenwanger and A. Mims .....	218
	Using PVForm, A Systems Performance Model, to Determine Optimum Mounting Configurations for Flat-Plate Photovoltaic Modules by D.F. Menicucci .....	232
	Duration Study for Heating and Air-Conditioning Design Temperatures by H.J. Snelling .....	242
HI-85-6	AN OVERVIEW OF DEVELOPMENTS REGARDING IN-SPACE CONVECTIVE HEATERS	
	Indoor Air Quality Research Related to Unvented Space Convective Heaters by I.H. Billick .....	251
	Performance of In-Space Electric Storage Heaters by G. Reeves .....	261
	Critical Assessment of Various Flue-Loss Methods for Solid-Fuel Heater Efficiency Measurement by J.W. Shelton and D.R. Jaasma .....	268
	The Pulse Combustion Space Heater as the Primary Heating Appliance in the Gas Appliance Research and Demonstration House by R.J. Kolodgy and J.L. West .....	283

HI-85-7	<b>HEAT TRANSFER IN FOODS</b>	
	Thermal Conductivity of Food: Present State of the Data by V.E. Sweat . . . . .	299
	Estimation of Thermophysical Properties of Food at Freezing Temperatures by J. Succar . . . . .	312
	Methods for Calculating Heat and Mass Transfer in Fruits and Vegetables Individually and in Bulk by J.J. Gaffney, C.D. Baird, and K.V. Chou . . . . .	333
	Interaction between Heat and Mass Transfer in Foods by S.K. Sastry, C.A. Zuritz, and R.C. Anantheswaran . . . . .	353
	Theoretical and Semitheoretical Methods for Estimating Freezing or Thawing Time by K. Hayakawa, K.R. Scott, and J. Succar . . . . .	371
HI-85-8	<b>SYSTEM FEATURES OF HVAC&amp;R DESIGN IN HONG KONG</b>	
	Design Considerations for a Floor-Based Air-Conditioning System with Modular Services Units at the New Hong Kong Bank Headquarters by D. Tuddenham . . . . .	387
	Practical Aspects of Seawater Cooling System Design in Hong Kong by P.Y.B. Chien, V. Tse, and D. Yeung . . . . .	404
	Characteristics of a Space Air Diffusion System in an Indoor Sports Stadium by S.K. Wang, K.W. Kwok, and S.F. Watt . . . . .	416
HI-85-9	<b>HVAC IS FOR PEOPLE</b>	
	Human Response to Thermal Conditions Maintained in an Office by Radiant Ceiling, Baseboard, Forced Air, and Floor Heating Systems by L.G. Berglund and A.P. Gagge . . . . .	439
	Validation of the Predicted Mean Vote Model of Thermal Comfort in Six Australian Field Studies by R.J. Dedear and A. Auliciems . . . . .	452
	A Cross-Cultural Study of Clothing and Thermal Comfort by H.S. Choi, E.A. McCullough, and F.H. Rohles . . . . .	469
	A New Simpler Method for Estimating the Thermal Insulation of a Clothing Ensemble by B.W. Olesen . . . . .	478
	Thermal Insulation of Layered Chinese Clothing by X.S. Zhu, E.A. McCullough, and B.W. Jones . . . . .	493
HI-85-10	<b>PERFORMANCE OF UNITARY HEAT PUMPS</b>	
	System Design Optimization and Validation for Single-Speed Heat Pumps by S.K. Fischer and C.K. Rice . . . . .	509
	The Laboratory Evaluation of the Heating Mode Part-Load Operation of an Air-to-Air Heat Pump by W.A. Miller . . . . .	524
	Field-Measured Cycling, Frosting, and Defrosting Losses for a High-Efficiency Air-Source Heat Pump by V.D. Baxter and J.C. Moyers . . . . .	537
	Design and Available Energy Analysis of a Heat-Only Residential Heat Pump for the Western Pacific Northwest by D.F. Elger, G.M. Reistad, and S. Lang . . . . .	555
	A Study of Heat Pump Service Life by N.C. Lovvorn and C.C. Hiller . . . . .	573
HI-85-11	<b>STUDIES OF DESIGN HEAT LOSS PREDICTIONS COMPARED TO ACTUAL FIELD PERFORMANCE FOR INSULATED SYSTEMS—PART II</b>	
	Comparisons of Four Computer Models with Experimental Data from Test Buildings in Northern New Mexico by D.K. Robertson and J.E. Christian . . . . .	591
	Effect of Insulation Joints on Heat Loss through Flat Roofs by C.P. Hedlin . . . . .	608
	Heat Loss and Gain through Floors above Insulated Crawlspace Walls by T.L. Moody, C.W. Jennings, and W.C. Whisenant . . . . .	623
	Energy Performance of an Architectural Fabric Roof: Experimental and Analytical Results by R.B. Gridley, G.H. Hart, and W.P. Goss . . . . .	640
HI-85-12	<b>SHOPPING CENTER DESIGN IN AUSTRALIA AND THE UNITED STATES</b>	
	Designing for Efficient Environmental Control in Large Shopping Complexes in Australia by A.L. Wilkinson . . . . .	661
	Innovating for Quality in the Air Conditioning of Large Open Retail Areas by J.R. Smeed . . . . .	669
	Shopping Center Air Conditioning—A Consulting Engineer's Approach by J. Vasta . . . . .	676
	HVAC Systems in Shopping Centers as a Utility Business by J.E. Wolfert . . . . .	680
HI-85-13	<b>VALIDATION METHODOLOGIES FOR ENERGY CALCULATIONS</b>	
	Verification of the BLAST Computer Program for Two Houses by G. Yuill . . . . .	687
	Validation of Hourly Building Energy Models for Residential Buildings by F.Y. Sorrell, T.J. Luckenbach, and T.L. Phelps . . . . .	701

	User-Effect Validation Tests of the DOE-2 Building Energy Analysis Computer Program by S.C. Diamond, C.C. Cappiello, and B.D. Hunn.....	712
	Validation of an Hourly Microcomputer Building Energy Analysis Program by T. Alereza and L. Hovander.....	725
HI-85-14	<b>ADVANCES IN SPACE HEATING EQUIPMENT AND METHODS</b>	
	Status of Corrosion Research for Condensing Heat Exchangers by R.A. Cudnik, S.G. Talbert, R. Razgaitis, J.H. Payer, and D.W. Locklin.....	737
	A Three-Step Method for Detecting Unacceptable Flu-Gas Leakage from Furnace Heater Exchangers by D.W. DeWerth and S.M. Sobieski.....	760
	Off-Cycle Energy Loss Measuring Methods for Vented Heating Equipment by E.R. Kweller.....	773
HI-85-15	<b>STRATEGIES FOR REDUCING COSTS FOR LARGE BUILDING AIR-CONDITIONING SYSTEMS</b>	
	Reducing Energy Cost through Intelligent Operation of HVAC Systems by R.W. Haines.....	791
	Energy Efficiency through the Use of Standard Air-Conditioning Control Systems by D.C. Hittle and D.L. Johnson.....	794
	Control Strategies and Building Energy Consumption by J.Y. Kao.....	810
	The High Cost-Effectiveness of Cool Storage in New Commercial Buildings by A. Rosenfeld and O. de la Moriniere.....	818
HI-85-16	<b>INTEGRATED DDC SYSTEM FOR CHILLER SYSTEM OPTIMIZATION</b>	
	Optimization Techniques for a Centrifugal Chiller Plant Using a Programmable Controller by G.A. Johnson.....	835
	Optimized Control of Multiple Chillers by D.H. Spethmann.....	848
	Optimization of Chiller Plant's Energy Consumption Utilizing a Central EMCS and DDC by V.A. Williams.....	857
HI-85-17	<b>APPLICATIONS OF VARIABLE-BASE DEGREE-DAY METHODS</b>	
	A Comparison of Traditional Degree-Day and Variable-Base Degree-Day Predictions with Measured Consumption of 20 Houses in the Denver Area by D.E. Claridge, H.S. Jeon, and M. Bida.....	865
	Calculation of Variable-Base Degree-Days and Degree-Nights from Monthly Average Temperatures by R. Sonderegger, P. Cleary, and B. Dickinson.....	875
	Application of Variable-Base Degree-Hours in Commercial Buildings by T. Alereza.....	893
HI-85-18	<b>ADVANCES IN NONAZEOTROPIC MIXTURE REFRIGERANTS FOR HEAT PUMPS—PART I</b>	
	The ABCs of NARBs (Nonazeotropic Refrigerant Blends) by T. Atwood.....	909
	The Characteristics of Fluid Mixtures and Their Utilization in Vapor Compression Refrigerating Systems by U.W. Schulz.....	918
	Two Refrigerant Mixtures and the Hard Sphere Fluid by G. Morrison and M. McLinden.....	929
	Prediction of Refrigerant Ternary Mixture Properties Using the Redlich-Kwong-Soave Equation of State by E.G. Wright.....	944
HI-85-19	<b>ELECTRIC DEMAND CONTROL</b>	
	Evaluating the Measured Results of Demand-Control Strategies in New and Retrofitted Commercial Buildings by M.A. Meal, M.A. Piette, and B. Gardiner.....	961
	Southern California Building Avoids Time-of-Use Rate with Demand Control by C. Ingram and J. Hunter.....	975
	A Study in the Application of Energy Management at a Table Service Restaurant by A. Balmer and K.M. Nodolf.....	993
	Reducing Demands of Electrically Heated Housing by W.S. Olney.....	1004
HI-85-20	<b>DESIGN OF VENTILATING SYSTEMS FOR HAZARDOUS GAS PROCESSES</b>	
	Ventilation of Hazardous Production Areas in Semiconductor Fabrication Facilities by R.V. Grout and T.W. Mulkey, Jr.....	1019
	Hazardous Gas Handling in the Semiconductor Industry by C.R. Johnson.....	1025
	Design Considerations for Distribution of Gases in Semiconductor Facilities by F.J. Bassette.....	1039
HI-85-21	<b>AIR-CONDITIONING IN A TEMPERATE CLIMATE</b>	
	The Use of the ASHRAE Hour-by-Hour Method for Determining If Air Conditioning Is Required in a Mild Climate by F.N. Blackwell.....	1049
	But We Have to Insulate—A Survey of Insulation Levels in New Houses by N. Isaacs and H. Trethowen.....	1057

	Bank Building HVAC Systems by J.A. Harper . . . . .	1064
HI-85-22	<b>INSTRUMENTATION AND MEASUREMENT METHODS FOR PERFORMANCE EVALUATION OF BUILDINGS</b>	
	A Review of Tracer-Gas Techniques for Measuring Airflows in Buildings by P. Lagus and A.K. Persily . . . . .	1075
	Instrumentation for the In-Situ Measurement of Building Envelopes by R. Grot, M. Modera, J.B. Fang, and H. Park . . . . .	1088
	Instrumentation for Measuring Moisture in Building Envelopes by A. TenWolde and G.E. Courville . . . . .	1101
	Measurement of Airflows in Air-Handling Systems by D. Int-Hout III . . . . .	1116
HI-85-23	<b>SMOKE CONTROL DESIGN CONSIDERATIONS FOR FIRE SAFETY SYSTEMS—PART I</b>	
	High-Rise Office Building Smoke Control Systems Involve More than Ducts and Fans for Complete Fire Safety by J.B. Buckley . . . . .	1125
	Validation of Network Models for Smoke Control Analysis by J.H. Klote and X. Bodart . . . . .	1134
	Fire Safety—The Future for Air Conditioning by L.N. Reddaway and D.J. Smith . . . . .	1146
	The Ideal Smoke Detection System with Special Considerations for Installation and Testing by D.D. Anderson . . . . .	1153
	An Approach to Elevator Pressurization by M. Dillon . . . . .	1158
HI-85-24	<b>DEVELOPMENTS IN GROUND-COUPLED HEAT PUMP TECHNOLOGY—PART I</b>	
	The ASHRAE Design/Data Manual for Ground-Coupled Heat Pumps by J.D. Parker, J.E. Bose, and F.C. McQuiston . . . . .	1169
	An Optimized Ground-Coupled Heat Pump System Design for Northern Climate Applications by M.A. Catan and V.D. Baxter . . . . .	1185
	A Parameterized Cost Model for Unitary, Water-Source Heat Pumps by H.M. Hughes . . . . .	1204
	New Approach for Analysis of Ground-Coil Design for Applied Heat Pump Systems by V.C. Mei and C.J. Emerson . . . . .	1216
HI-85-25	<b>SMOKE CONTROL INSTALLATION, TESTING, AND ENFORCEMENT CONSIDERATIONS FOR FIRE SAFETY</b>	
	Fire Protection of Building Services through Fire-Resistant Construction by D.C. Knight and T. Mackle . . . . .	1227
	Smoke Movement Studies in a 15-Story Hotel by G.T. Tamura and P.J. Manley . . . . .	1237
	The Problem with Estimating the Safe Time Required for Egress by H.A. MacLennan . . . . .	1254
	Smoke Control Options Antipodean Practice by A.R. Hatton . . . . .	1266
HI-85-26	<b>DEVELOPMENTS IN GROUND-COUPLED HEAT PUMP TECHNOLOGY—PART II</b>	
	Ground-Coupled Heat Pumps with Low-Temperature Heat Storage: Some Swedish Experiences by P. Franck and T. Berntsson . . . . .	1285
	Solar Goes Underground—The SERI Packaged Ground-Coupled Heat Pump by C.D. MacCracken . . . . .	1297
	Results of the Residential Earth-Coupled Heat Pump Demonstration in Upstate New York by P.J. Hughes, L. Loomis, R.A. O'Neil, and J. Rizzuto . . . . .	1307
	Field and Laboratory Simulation of Earth-Coupled Heat Pump Coils by R.J. Couvillion . . . . .	1326
HI-85-27	<b>ADVANCES IN NONAZEOTROPIC MIXTURE REFRIGERANTS FOR HEAT PUMPS—PART II</b>	
	Heat Transfer of Nonazeotropic Mixtures in a Falling Film Evaporator by T. Berntsson, K.M. Berntsson, and H. Panholzer . . . . .	1337
	Condensing Coefficients When Using Refrigerant Mixtures by W.F. Stoecker and E. Kornota . . . . .	1351
	Simulation of a Heat Pump Operating with a Nonazeotropic Mixture by P.A. Domanski and D.A. Didion . . . . .	1368
	Theoretical and Experimental Investigations of Advantageous Refrigerant Mixture Applications by H. Kruse, M. Kuever, U. Quast, M. Schroeder, and B. Upmeier . . . . .	1383
HI-85-28	<b>ENERGY ANALYSIS IN CONSERVATION RETROFIT</b>	
	Retrofit Energy Studies of a Recreation Center by J.S. Haberl and D. Claridge . . . . .	1421
	Measured Large-Scale Residential Retrofit Performance by G.A. Reeves and J.F. McConnell . . . . .	1434
	Estimation of Reference or Balance Point Temperature by J.M. MacDonald, L. Jung, and J.A. Tevepaugh . . . . .	1441
	Determination of Thermal Time Constants in Residential Housing by J.E. Griffith . . . . .	1450

HI-85-29	ENERGY METERING AND MONITORING	
	Paper withdrawn	
	Before-and-After Metered Data and Daily Load Profiles of Retrofit Commercial Heat Pump Water Heaters by A.S. Lloyd, F.H. Kohloss, and S.P. Elliott .....	1463
	Performance of Heat Pump/Desuperheater Water-Heating Systems by D.M. Counts .....	1473
	Measured Results of Energy-Conservation Retrofits in Nonresidential Buildings: Interpreting Metered Data by B.L. Gardiner and M.A. Piette .....	1488
HI-85-30	DESIGN AND RETROFIT OF BUILDING ENVELOPE SYSTEMS	
	Prediction of the Moisture Performance of Walls by G.O.P. Handegord .....	1501
	Predicted Energy Conservation in Existing Small Commercial Buildings by W.R. Mixon and R.J. Kedl .....	1510
	Short-Term Measurements for the Determination of Envelope Retrofit Performance by K. Subbarao, D. Mort, and J. Burch .....	1516
HI-85-31	RECENT ENERGY-SAVING TECHNOLOGIES IN HEAT PUMP AIR CONDITIONERS	
	Development of Demand Defrost Control System for Residential Heat Pumps by T. Imaiida, S. Kojima, F. Aoi, Y. Isaka, and M. Ohta .....	1527
	Inverter Control System in the Residential Heat Pump Air Conditioner by Y. Shimma, T. Tateuchi, and H. Sugiura .....	1541
	Reversible-Flow-Type Linear Expansion Valves for Heat Pumps by Y. Nakashima, H. Iijima, M. Umehara, and F. Matsuoka .....	1555
	Annual Energy Saving Effect of Capacity-Modulated Air Conditioner Equipped with Inverter-Driven Scroll Compressor by T. Senshu, A. Arai, K. Oguni, and F. Harada .....	1569
	Seasonal Efficiencies of Residential Heat Pump Air Conditioners with Inverter-Driven Compressors by M. Hori, I. Akamine, and T. Sakai .....	1585
HI-85-32	INTERNATIONAL SYMPOSIUM ON ALTERNATIVE FUELS FOR DISTRICT HEATING AND COOLING	
	New Technologies for the Use of Alternative Fuels in European District Heating Systems by E.O. Kainlauri	1599
	Heat from an Old Coal Mine in Sweden by J.Y. Bovin .....	1613
	Wood and Peat as Fuels for a Showcase by K. Leppa and E.A. Jyring .....	1623
HI-85-33	EXPERIENCE AND PERFORMANCE OF OPERATIONAL SOLAR SYSTEMS—PART I	
	Observations from the Field: Solar Domestic Hot Water Installation Recommendations by C.J. Cromer .....	1631
	Experience and Performance of Operational Solar Systems by T.S. Dean .....	1637
	Description of the Design, Construction, and Operation of Four Residential Solar Space-Heating Systems by R.M. Cohen .....	1641
	Predicted versus Measured Performance: How Well do the Passive Solar Design Manual Predicted Values Compare to Measured Performance? by E.O. Pollock .....	1654
HI-85-34	AIRFLOW AROUND BUILDINGS AND EXHAUST RE-ENTRY	
	Flow Around Isolated Structures and Building Clusters: A Review by R.P. Hosker, Jr. ....	1671
	Influence of Exhaust Velocity and Wind Incidence Angle on Dilution from Roof Vents by D.J. Wilson and E. Chiu .....	1693
	Gasp! Wheeze! Ugh! Where Is That Smell Coming From? by R.N. Meroney .....	1708
	Concentration Coefficients in Atmospheric Dispersion Calculations by J. Halitsky .....	1722
HI-85-35	MULTICELL INFILTRATION STUDIES—PART I	
	Modeling Parameters for Boundary-Layer Wind Tunnel Studies of Natural Ventilation by R.M. Aynsley .....	1739
	Estimating Comfort Cooling from Natural Wind inside Buildings Using Boundary-Layer Wind Tunnels by R.M. Aynsley .....	1748
	Multizone Infiltration Measurements in Homes and Buildings Using a Passive Perfluorocarbon Tracer Method by R.N. Dietz, T.W. D'Ottavio, and R.W. Goodrich .....	1761
	Errors Resulting from the Use of Single-Zone Ventilation Models on Multizone Buildings: Implications for Energy Conservation and Indoor Air Quality Studies by T.W. D'Ottavio and R.N. Dietz .....	1777
HI-85-36	ADVANCES IN ABSORPTION CYCLE TECHNOLOGY—PART I	
	Steady-State Modeling of Absorption Heat Pumps with a Comparison to Experiments by M.O. McLinden and S.A. Klein .....	1793

	A Modular Computer Simulation of Absorption Systems by G. Grossman and E. Michelson . . . . .	1808
	Development and Performance of a Directly Fired and Periodically Operating Absorption Heat Pump by K.F. Knoche and H.B. Grabenhenrich . . . . .	1828
	An Experimental Comparison of Ammonia-Water and Ammonia-Water Lithium Bromide Mixtures in an Absorption Heat Pump by M. McLinden and R. Radermacher . . . . .	1837
	Influence of a Surfactant Additive on Absorption Heat Pump Performance by J.W. Michel and H. Perez-Blanco . . . . .	1847
HI-85-37	DETERMINATION OF BUILDING PHYSICAL PARAMETERS FROM ENERGY USE DATA	
	A Method for Deriving a Dynamic System Model from Actual Building Performance Data by R.R. Crawford and J.E. Woods . . . . .	1859
	Equivalent Thermal Parameters for an Occupied Gas-Heated House by N.W. Wilson, B.S. Wagner, and W.G. Colborne . . . . .	1875
	Building Parameters and Their Estimation from Performance Monitoring by K. Subbarao . . . . .	1886
HI-85-38	THERMAL STORAGE IN BUILDINGS USING PHASE CHANGE MATERIALS	
	PCM Science and Technology: The Essential Connection by G.A. Lane . . . . .	1897
	Performance Measurements of a Phase-Change Trombe Wall in a Calibrated Hot Box and Unoccupied Test Houses by J.A. Wild, P.J. Moses, and E.E. Strom . . . . .	1911
	Phase-Change Materials in Architecture—Opportunities and Constraints by P. Kando . . . . .	1925
	Clathrates and Conjugating Binaries: New Materials for Thermal Storage by J. Tomlinson . . . . .	1931
	Phase-Change Materials in Buildings: Problems and Progress by I. Gyuk . . . . .	1938
HI-85-39	MEASUREMENT AND CONTROL OF RADON AND ITS DAUGHTER PRODUCTS	
	Measurement of Sources and Air Concentrations of Radon and Radon Daughters in Residential Buildings by A.C. George . . . . .	1945
	Impact of Energy Conservation Measures on Radon and Radon Progeny Concentrations: A Controlled Study by H.E. Rector, M.D. Koontz, D.R. Cade, and N.L. Nagda . . . . .	1954
	Control of Indoor Radon and Radon Progeny Concentrations by R.G. Sextro . . . . .	1963
	Removal of Radon Daughters from Indoor Air by N. Jonassen . . . . .	1980
HI-85-40	MULTICELL INFILTRATION STUDIES—PART II	
	MOVECOMP: A Static-Multicell-Airflow-Model by M.K. Herrlin . . . . .	1989
	An Automatic Multi-Tracer-Gas Method for Following Interzonal Air Movement by J.J. Prior, C.J. Martin, and J.G.F. Littler . . . . .	1997
	Documenting Air Movements and Infiltration in Multicell Buildings Using Various Tracer-Gas Techniques by D.T. Harrje, G.S. Dutt, D.L. Bohac, and K.J. Gadsby . . . . .	2012
	Evaluation of a Simple Technique for Measuring Infiltration Rates in Large and Multicelled Buildings Using a Single Tracer Gas by R.R. Walker, M.D.A.E.S. Perera, O.D. Oglesby, and M.B. Hathaway . . . . .	2028
HI-85-41	ADVANCES IN ABSORPTION CYCLE TECHNOLOGY—PART II	
	Multistage Absorption Heat Transformers for Industrial Applications by G. Grossman . . . . .	2047
	Advanced Heat Pump and Air-Conditioning Cycles for the Working Pair H <sub>2</sub> O/LiBr: Domestic and Commercial Applications by G. Alefeld and F. Ziegler . . . . .	2062
	Advanced Heat Pump and Air-Conditioning Cycles for the Working Pair H <sub>2</sub> O/LiBr: Industrial Applications by G. Alefeld and F. Ziegler . . . . .	2072
	Design and Performance of a High-Temperature-Boost Absorption Heat Pump by M. Ikeuchi, T. Yumikura, E. Ozaki, and G. Yamanaka . . . . .	2081
	Parallel Flow Chiller-Heater by M. Fallek . . . . .	2095
	Index of Technical and Symposium Papers, Volume 91, Part 2 . . . . .	2103
