

ASHRAE Technical FAQ

ID 59

Question How can I show compliance to [ASHRAE Standard 90.2 -2007](#) - Energy-Efficient Design of New Low-Rise Residential Buildings?

Two paths are provided for compliance: prescriptive or performance path methods (Sections 5, 6, and 7) or an annual energy cost method (Section 8).

This Standard covers the building envelope, heating equipment and systems, air-conditioning equipment and systems, domestic water heating equipment and systems, and provisions for overall building design alternatives and trade-offs.

Answer

This Standard does not cover:

- a) Specific procedures for the operation, maintenance, and use of residential buildings;
- b) Portable products such as appliances and heaters;
- c) Residential electric service or lighting requirements.

The Standard may be purchased on-line at our website, www.ashrae.org or by calling 1-800-527-4723 in the USA and Canada or 1-404-636-8400.
